

11"x17" Gatefold Brochure Template

11.25"x17.25" with bleeds

Folds to 8.5"x11" Tall

Create your layout at 11"x17" with 0.125" bleed allowance on all four sides (11.25"x17.25"). Place this template into the center of your layout for guidance. Do not enlarge or reduce. Delete or turn off this template layer before exporting your file to PDF.

Outside Left Panel

(Front Right when folded)

Inside Right Panel

4.25" wide

Outside Back Panel

Inside Center Panel

8.5" wide

Outside Right Panel

(Front Left when folded)

Inside Left Panel

4.25" wide

Folds

Please note,
this edge
will meet in the
middle of the
outside front with
this edge
when folded.

Images should either bleed off the edge by 0.125" OR have 0.125"-0.25" margin AWAY from the edge.

Also, all text should be at least 0.125" (0.25" preferred) away from the edge EXCEPT FOR TEXT THAT WRAPS FROM THE FRONT LEFT PANEL TO THE FRONT RIGHT PANEL. That text should bleed off of both edges so it overlaps properly when the piece is folded.
